

Richoux
ESTABLISHED LONDON 1909

Worldwide Franchising

London is one of the great international cities of the world and many overseas visitors come to Richoux, recognizing the quality of its food service and ambiance, its feeling of being part of a traditional English heritage.

There is excellent potential for the successful development of Richoux outlets in high quality new markets around the world. Two company owned Richoux restaurants operated successfully in Manhattan, New York in the 1990's, and today two Franchises in the Middle East & Egypt continue with great success.

At present there are four restaurants in central London. The brand is currently generating a high level of interest in its successful concept and Restaurants International have therefore recently launched a Strategy to expand into carefully selected target markets outside the United Kingdom.

Restaurants International delivers a comprehensive package of support in site selection and development, product sourcing, operations and financial control, staff selection and training, menu development and marketing.

We are looking to work with Franchise Partners who will wish to develop national or major regional territorial areas. Franchise Partners should be well resourced to take full advantage of this opportunity, and be fully familiar with the market in which they propose to operate. Ideally they will already have food and beverage experience. For the right potential Partner this is an outstanding opportunity to develop a strong business with cost effective startup fees and sensible ongoing royalties.

The CEO of Restaurants International will be fully involved with your project from the outset.

Cindy Cromble-Holme, CEO of Restaurants International, led Richoux in London operations for over 15 years as well as being involved with the existing franchisees. She previously worked in food and beverage in five star hotels in South Africa.
